Your Pet's Seizure Diary

Please record every time your pet has a fit in the following chart. Keeping a log of all seizure activity will help you and your vet notice any changes in frequency. Seizure patterns can be a great help to your vet in deciding upon the correct management protocol and the recording of other significant events may show a link with seizure patterns which will be important information to enable your vet to decide on any treatment changes.

How to fill in the diary:

✓= one fit ✓✓ = two fits (and so on). Please circle any dates when the medication was changed by your veterinary surgeon.Please highlight the dates your pet was in season (if appropriate), also please indicate any other significant events.
